In comparison, the Yasawa archipelago offers a more dramatic scene – mountainous volcanic islands surrounded by white sandy beaches and vibrant coral reefs. Sailing around these islands is sure to blow you away.

Both the Mamanuca and the Yasawa Islands offer a huge variety of activities, from spa days to mountain treks, dolphin spotting to diving. Grand Bleu Fiji will put you in the right place at the right time for your perfect Mamanuca and Yasawa

An aerial photograph of a tropical coastline. On the left, a sandy beach is bordered by lush green vegetation. The water transitions from a shallow, light turquoise near the shore to a deep, dark blue further out.
